Ventis Antennas and RF

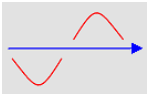

# Ventis Ultrawideband Antennas and Arrays

## Ultrawideband Directional Ultrawideband Omnidirectional Ultrawideband Arrays

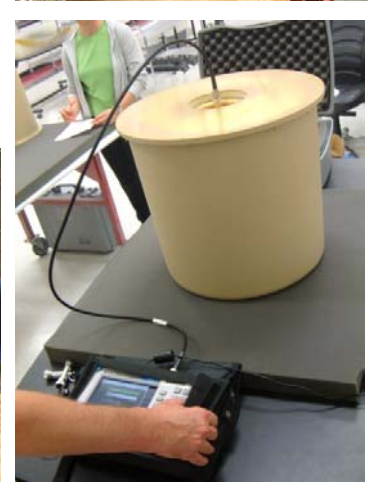

- ✓ Ultrawideband, Time Non-Dispersive
- ✓ Polarization Agile Designs (directional)
- ✓ “Constant” Effective Aperture
- ✓ Low Radar Cross Section
- ✓ Custom Antennas
- ✓ Quick Response (4 to 6 weeks ARO)
- ✓ Ultra-Lightweight Designs
- ✓ Space/Volume Efficient
- ✓ Rugged

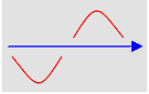

# Ventis Ultrawideband Antennas and Arrays

- ✓ Antennas 3rd party validated and operationally deployed by the DoD
- ✓ The only selective laser sintered (SLS) UWB antennas on the market
- ✓ Lighter, more rugged, at higher levels of performance/wider frequency coverage
- ✓ Produced solely in the US, at ISO 9001:2000 Certified, AS9100 Rev B Certified facilities, including the largest SLS facility in the US
- ✓ Built and delivered antennas as rapidly as 2 weeks ARO (expedited)
- ✓ Woman-owned small business
